Your query

Our polish Company is planning to establish a subsidiary company within the territory of Ukraine. The subsidiary will operate in retail clothing business (potentially wholesale).

We would like to ask whether your legal / accounting office is offering:

- accounting support payroll issues (we assume hiring employees in Ukraine) and
- virtual office services (registered seat for the newly established company).

We would appreciate if you could send as a proposal regarding accounting services and virtual office (including registered seat).
It would be great if the offer would cover:
1/ the scope of services,
2/ fees, and
3/ list of out-of-scope services (if applicable).

We are still estimating the shape and the scale of new business located within the Ukraine and details are not specified. Thus, a standardized offer will be sufficient.
However, in case of necessary we can share a big picture of planned business.
